Standard Operating Procedure: Wire Transfer Authorization

Document ID: SOP-FIN-2026-0881 | **Domain:** Banking Operations

1. Purpose & Scope: This standard operating procedure governs the compliance and authorization protocol for high-value domestic and cross-border electronic funds transfers executed through the core banking network.

2. Dual-Control Protocol: Any transaction exceeding fifty thousand rupees (■50,000) mandates independent dual verification. The initiating teller must verify verified government KYC documentation and biometrics.

3. Cryptographic Sign-Off: The authorizing compliance officer must validate the destination account against the OFAC sanctions database and cryptographically sign the authorization ticket prior to SWIFT transmission.
